The first part of the document discusses the importance of maintaining accurate records and the role of the auditor in this process. It emphasizes that the auditor's primary responsibility is to provide an independent and objective assessment of the financial statements. This involves a thorough examination of the accounting records and supporting documentation to ensure that they are free from material misstatements.

In addition, the document highlights the need for transparency and communication between the auditor and the management of the entity. The auditor should clearly communicate the findings of the audit and any areas of concern, while management should provide a clear and concise response to these findings. This collaborative approach is essential for ensuring the integrity and reliability of the financial reporting process.

The document also addresses the ethical considerations that govern the auditor's conduct. Auditors are bound by a strict code of ethics that requires them to act with integrity, objectivity, and professional skepticism. This means that auditors must not allow external pressures or biases to influence their professional judgment and must always act in the public interest.

Finally, the document discusses the broader implications of the audit process for the financial system as a whole. A robust and reliable audit system is crucial for maintaining investor confidence and ensuring the stability of the capital markets. By providing a high level of assurance regarding the accuracy of financial statements, auditors play a vital role in the overall health and functioning of the economy.

In conclusion, the audit process is a complex and demanding task that requires a high level of skill, knowledge, and ethical commitment. Auditors must be vigilant in their duties and must always strive to provide the highest quality of service to their clients and the public. Only through a commitment to excellence and integrity can the audit profession truly earn the trust and respect of the financial community.

The document concludes by reiterating the central theme of the audit process: the pursuit of truth and the promotion of transparency. It is this commitment to these values that defines the audit profession and ensures its continued relevance and importance in the modern world.

The final section of the document provides a summary of the key points discussed throughout the report. It serves as a concise overview of the audit process and the auditor's role, reinforcing the message that the audit is a fundamental component of the financial reporting system.

**TOWN OF RICO, COLORADO  
ORDINANCE NO. 2002-6**

**ENACTING A TEMPORARY DEVELOPMENT RESTRICTION  
FOR ALL FLOOD PLAIN AREAS**

**WHEREAS**, the Town of Rico is authorized to regulate the use of land within its jurisdiction by its Home Rule Charter authority, general police powers, and Colorado Revised Statutes Article 20, Title 29; and.

**WHEREAS**, the need for a waste water treatment system was identified and recommended in a WASTE WATER EVALUATION AND ANALYSIS, dated December 1995, prepared by Goff Engineering of Durango, and by the Engineering Report for 201 Wastewater Facilities Plan, dated December 1999, prepared by Rothberg, Tamburini and Winsor of Denver; and.

**WHEREAS**, the Board of Trustees has diligently pursued planning and financing for a waste water treatment system, including but not limited to retaining an engineer to prepare a federal Preliminary Engineering Report and applying for various federal and state financing; and.

**WHEREAS**, the Town of Rico has applied for grant funding from U.S.D.A. Rural Development, Environmental Protection Agency and the Economic Development Administration in the amount of \$3.3 millions dollars; and.

**WHEREAS**, as a condition to receiving federal funding local communities are required to restrict or prohibit sewer service in flood plain areas; and.

**WHEREAS**, the Board of Trustees finds that the current flood plain regulations do not meet the federal requirements concerning development in flood plain areas and potential development is threatened in the flood plain areas, and that such development in the flood plain may jeopardize the ability of the Town of Rico to receive federal funding for a waste water treatment system, and thereby threatens the health, safety and general welfare of the Rico Community;

**NOW THEREFORE, THE BOARD OF TRUSTEES OF THE TOWN OF RICO ORDAINS:**

**SECTION 1. MORATORIUM ON FLOODPLAIN DEVELOPMENT:** A temporary development restriction is hereby established for all development application, subdivision, planned unit development, building, construction and excavation activities in all designated Flood Hazard zones, including Zone AE, Zone A, Zone X, and Zone Y, as defined in the Rico Land Use Code, for a period of four months from the effective date of this ordinance in order to preserve the status quo and provide time for the orderly formulation and establishment of appropriate flood plain regulations. Town shall not issue building or excavation permits or process applications for the development activities listed above; however, construction and excavation activities related to common public utility installation, repair, or maintenance, or related to abatement of a public nuisance or prevention of an emergency or direct unforeseeable threat to the public safety shall not be restricted by this ordinance.

GROUP 11 REPORT  
MATH 101

The first part of the report discusses the importance of understanding the underlying structure of a problem before attempting to solve it. This is particularly true in the context of optimization problems, where the choice of variables and constraints can significantly impact the solution.

In the second part, we explore the concept of duality in linear programming. The primal problem is to maximize the objective function subject to the constraints, while the dual problem is to minimize the objective function subject to the dual constraints. The strong duality theorem states that if both the primal and dual problems are feasible, then their optimal values are equal.

The third part of the report focuses on the simplex method, a widely used algorithm for solving linear programming problems. It involves iteratively improving the objective function value by moving from one vertex of the feasible region to an adjacent one until an optimal solution is reached.

Finally, we discuss the sensitivity analysis of linear programming problems. This involves determining how the optimal solution and objective function value change as the coefficients of the objective function or the right-hand side of the constraints vary.

The report concludes by summarizing the key findings and highlighting the importance of a systematic approach to solving optimization problems. We also provide a list of references for further reading on the topics discussed.

APPENDIX A: SOLUTION TO THE OPTIMIZATION PROBLEM  
The optimal solution to the problem is found to be  $x_1 = 2$ ,  $x_2 = 3$ , with a maximum objective function value of 11.

APPENDIX B: DUAL PROBLEM SOLUTION  
The optimal solution to the dual problem is found to be  $y_1 = 1$ ,  $y_2 = 2$ , with a minimum objective function value of 11.

APPENDIX C: SENSITIVITY ANALYSIS  
The sensitivity analysis shows that the optimal solution remains unchanged as long as the right-hand side of the constraints varies between 0 and 6. The objective function value increases linearly with the right-hand side value.

Variable	Optimal Value	Constraint
$x_1$	2	$2x_1 + 3x_2 \leq 12$
$x_2$	3	$x_1 + x_2 \leq 5$
$y_1$	1	$2x_1 + 3x_2 \leq 12$
$y_2$	2	$x_1 + x_2 \leq 5$

WHEREAS the Board of Trustees finds that the affirmative consent by a potential write-in candidate shall promote efficient election of public officials and shall avoid the potential election of unwilling electors to elected positions:

NOW THEREFORE, THE BOARD OF TRUSTEES OF THE TOWN OF RICO ORDAINS:

**Section 1. AFFIDAVIT OF INTENT REQUIRED.** The Town Clerk shall not count any vote for write-in candidates unless an Affidavit of Intent has been completed, signed and filed with the Town Clerk by such write-in candidate at least twenty (20) days prior to the election. Such Affidavit of Intent shall indicate that the candidate desires the office and is qualified to assume the duties of that office if elected.

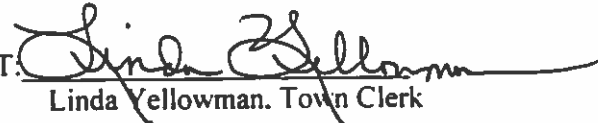

**Section 2. CANCELLATION OF ELECTION.** The Town Clerk shall have the authority to cancel a candidate election if, at the close of business on the nineteenth day before the election, there are not more candidates than offices to be filled at such election, including candidates filing Affidavits of Intent, the Clerk shall cancel the election and declare the candidates elected and such candidates shall be deemed elected. Notice of such cancellation shall be published, if possible, in order to inform the electors of the municipality, and the notice of such cancellation shall be posted at each polling place and in not less than one other public place.

**Section 3. DESIGNATION OF ELECTED OFFICIALS TERMS.** When an election has been cancelled pursuant to Section 2, and a question exists as to the vacancy a candidate is filling with regard to the term assigned to board positions by the staggered board terms, then the Town Board shall by motion assign the candidates to fill specific board positions in order to determine the term for each board member.
