

REQUEST FOR PROPOSALS FOR THE DESIGN AND INSTALLATION OF A
SUPERVISORY CONTROL AND DATA ACQUISITION SYSTEM (SCADA)

The Town of Rico is seeking a firm or team to provide a design and install a SCADA system for the town of Rico's water system. The successful firm will have a proven track record of installing and operating systems of similar size and in similar environments. This includes a master station with 2-3 remote stations with radio communication integrated between the stations. In addition to providing design details of the proposed system, the successful applicant will provide references from regional municipalities or homeowners associations for whom the firm has installed and provided technical support for a SCADA system. Interested firms will also provide names and numbers of water operators that work with systems installed by applicants.

Proposals will provide design details including communication platforms and support, installation schedule, installation costs and further details on technical support as well as hourly rates of key personnel, an estimate of total cost and understanding that things do not always go as planned, a not to exceed number. The town of Rico does not currently have meters that can be read remotely however the proposed system should be designed with the possibility of new meters taken into account.

A mandatory meeting for interested engineering firms will take place on 11/15/2018 at 10:00 AM at the Rico Town Hall located on 2 Commercial Street, Rico Colorado. The meeting will include a site visit and Rico public works personnel will be available to answer questions. A four wheel drive vehicle or a wiliness to hike one mile uphill are required to access the Rico water tanks that will be included in the site visit. Be prepared for bad weather. Submit proposals by December 1st, 2018 by 5:00 PM, in person to 2 Commercial Street Rico, Colorado, by mail to P.O. Box 9, Rico Colorado, 81332, or email to townmanager@ricocolorado.gov
